

PRODUCT:

- ST9 P/N 130-0132: P5 D-Ring: Rubber [OLD]
- ST9 P/N 130-0165: P5 D-Ring, Polyurethane [NEW]
- ST9 P/N 150-3030: P5 LBRT Red Fluid End
- ST9 P/N 150-3036: P5 LBRT Blue Fluid End

MODIFICATION:

- 1) Future ST9 P5 fluid ends will now contain a D-Ring made of polyurethane instead of rubber. This change will apply to LBRT Red & Blue fluid ends and d-rings will be backwards compatible with existing inventory.

DETAILS: Due to concerns regarding life on rubber d-rings, the decision has been made to begin building P5 fluid ends with a urethane d-ring instead. These parts will be available for order immediately from ST9.

Note that in the pictures the urethane d-ring is slightly thicker and has more shine.

Starting with the following serial numbers, ST9 new build fluid ends will include 130-0165

- ST9-20-4-11594
- ST9-20-4-11592
- ST9-20-4-11610
- ST9-20-4-12641
